Financial Aid Census Date

Your aid will not be adjusted after this date for dropped or added courses, and your credits as of this date will be your attempted credits for the Satisfactory Academic Progress calculation performed in at the end of the semester.

60% date

This date is based on Federal Financial Aid calculations and is calculated as of the first scheduled day of your classes for the semester. If you withdraw from school or stop attending all your classes before **the 60% date**, federal financial aid regulations require you to repay some or all of your aid.

Last Day to Drop

This is the last day you can drop a course and still be considered for a DW grade, rather than a U. It does not affect your Financial Aid, since either way the course counts as unsuccessful in the SAP calculation. (alverno.edu/sap)
