

# Statement for Justice, Inclusion and Compassion

We in Student Development and Success (SDS) are agents of change committed to addressing inequalities and injustices on campus and in our community. We acknowledge, advocate, and educate the Alverno Community on issues of social justice. The work of Student Development and Success will foster a community of servant leadership.

## Commitments

In an academic year, the Division of Student Development and Success aims to remove and/or reduce barriers and challenges to student success on campus

- Create a professional environment/experience in which we continuously develop our knowledge of and perspective towards justice and equity regarding the many identities that exist within our student body.
- Educate our community on the College perspective on justice and compassion through SDS run programs and events.
- Bring an understanding of Servant Leadership and its connection to justice to the Alverno College community.
