# WHAT HAPPENS AFTER AN OVERDOSE?

# Milwaukee Overdose Response Initiative

MORI ASSISTANT: LIEUTENANT ROBERT REHBERGER MORI SUPERVISOR: CAPTAIN DAVID POLACHOWSKI

PEER SUPPORT SPECIALIST: AMY MOLINSKI

## BRIEF HISTORY OF MORI PROGRAM

#### January-June 2019

- Funding approved by Milwaukee Common Council.
  - Program started in June 2019 with money allocated by Alderman Michael Murphy.
- Worked with city health department and diverse partners within community to put it all together.

#### June 2019-November 2019

- Started with one car, half days, four days a week.
- Utilized the Fire Department, along with Peer Support Specialists to follow up on Non Fatal overdoses.

#### December 2019-July 2021 IOPSSL Grant – NACCHO

- Created post-fatal program Social worker embedded at M.E.'s office.
  - NACCHO National Association of County and City Health Officials.

#### July 2021 – Present

- We have now expanded to two cars, five days a week, full days.
- BJA COSSUP Grant 10/2021-9/2024
- IOPSSL Grant #2 11/2021-7/2023
  - COSSUP Comprehensive Opioid, Stimulant, and Substance Use Program.

#### HOW WE OPERATE

#### **Planning**

- We review overdoses from the past 24 hours or over the weekend
- We receive Electronic Patient Care Report (EPCR) after EMS contact and determine if person is a potential MORI client
- We also receive referrals from various other entities within Milwaukee County

#### **Operation**

- MORI supervisor, off-duty MFD member, and peer support specialist conduct visits in a Community Paramedic vehicle
- Visit homes, hospitals or current treatment center
- Use caution when asking for individual and introducing team and reason for visit

#### Milwaukee Overdose Response Initiative MORI

The opioid epidemic in the United States continues to rise and the State of Wisconsin mirrors this human tragedy. The Milwaukee Overdose Response Initiative (MORI) is a community-wide approach aimed to address this everincreasing overdose crisis. The goal is to focus on decreasing fatalities by utilizing diverse databases to uncover trends, streamline access to treatment and provide education. This goal has been initiated with an interdisciplinary team of professionals committed to affect those struggling with a substance use disorder. Both public and private entities have come together to jointly develop a strategy to comprehensively respond to overdoses.

#### Overdose Response Team

The Milwaukee Overdose Response Initiative (MORI) responds to those individuals and their families who have experienced an overdose. This effort involves Response Teams that consist of MFD Community Paramedics and peer recovery/support coaches. The teams provide overdose victims with guided access to appropriate treatment, counseling services, and harm reduction. Follow-up visits from the MORI team ensures victims and families are supported in their chosen treatment, including long-term recovery. The primary goal of MORI is to decrease the number of repeated overdoses per victim through relationship building and guided access to available resources and treatment.

Patients are identified using a data tool administered by the MFD, which captures overdose incidences that occur daily in the City of Milwaukee. MFD Mobile Integrated Health (MIH) evaluates the data and compiles appropriate information and materials to

First Visit: MFD Community Paramedics respond to the overdose, alongside a peer recovery support specialist. The Response Team provides an appropriate interaction. Access to treatment and harm reduction items are offered, including Narcan and Fentanyl Test Strip education and distribution, in the form of a Hope Kit.

 Second Visit: The Response Team engages the patient during a scheduled visit, where support, including addressing social determinents of health, can be integrated into the services provided. For long-term services, patients are referred to a treatment provider including services offered by the Milwaukee County Behavioral Health Division.

When the patient indicates readiness to receive treatment, at any time during engagement with the MORI team, transportation will be secured for destination to appropriate treatment services, including those offered by the partnering agencies of Clean Slate, Community Medical Services, and WisHope.

•if a patient or patient's family member initiates an overdose response prior to the Response Team's scheduled visit, the MFD Community Paramedics will assist in guiding the patient to an appropriate service for treatment.

The Numbers: June 2019 - December 2023

	Attempted Contacts	Successful Contacts	Sought Treatment
Client Totals	14,724	3,367	336

Harm Reduction/Hope Kits: March 2022 - December 2023

Kits Distributed Totals 4,576

Milwaukee Fire Department Mobile Integrated Healthcare Program 2024

#### HOW WE WORK AS A TEAM

- We recognize that the MFD uniform grants us access that we wouldn't otherwise have
- Peer support specialist uses personal experiences to make connection and build trust
- Follow the lead of the individual that we are meeting with. They will often give their attention to one member of the team and we allow that member to lead the conversation
- Through conversation, identify drug of choice, frequency of use and willingness to engage in services
  - "Meet the patient where they are at!"

#### CASE STUDY

#### Day One

- 48 y/o male with 3 EMS overdose runs in previous week
- Patient attempts to decline services
- Team expresses concern with frequency and number of nonfatal overdoses
- Explains options for assistance
- Patient expresses interest in residential services
- Calls made to residential providers to identify bed availability/Identify need for detox
- Create plan for next day

#### Day Two (and ongoing)

- Patient taken to detox by wife
- Communication continues between team and patient and family
- Notified of progress while in detox from family
- Completed detox and waited for bed availability (maintained communication)
- Entered residential services for 90 days
- Completed residential and returned home
- Patient began working out, obtained employment, purchased a car
- Celebrated with team I year in recovery in July 2023

#### SOME OF OUR PARTNERS

- Community Medical Services
- CleanSlate
- Wishope
- Rogers Behavioral Health
- Aurora Behavioral Health (DEWEY)
- Community Collective (MORI, MHD, CMS, CleanSlate, Vivent Health, UMOS, Street Angels, Samad's house, Safe & Sound, WCS, Legal Action)
- Behind the Walls Program @Community
   Reintegration Center / Milwaukee County Jail
- Medical Examiners Office
- Plus many more

#### CASE STUDY

#### Day One

- 37 Y/O Male, in custody of CRC
- 9 overdose reports since 2020
- Change of plans in treatment, morning of release
- Transport from CRC to treatment provider and back home
- Called later in the afternoon that he was not provided a prescription card at release

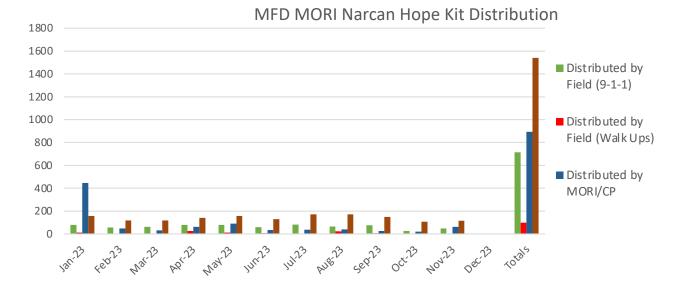

#### Day Two

- Transport to original treatment provider and back home
- At pickup he indicated a need for clothing / Street
   Angels called
- Reached out to case manager from CRC about prescription
- New prescription card and clothing dropped off in the afternoon

# HOPE KITS

Narcan Hope Kit Distribution	Jan-23	Feb-23	Mar-23	Apr-23	May-23	Jun-23	Jul-23	Aug-23	Sep-23	Oct-23	Nov-23	Dec-23	Totals
Distributed by MORI/CP	446	48	30	63	90	33	38	39	25	20	62	28	922

Replacement Kits Distributed to Field	160	72	21	176	119	83	61	173	199	293	113	148	1618
Total Hope Kits Distributed	606	120	51	239	209	116	99	212	224	313	175	176	2540

# **OUTREACH**

- Community Events/Narcan Training
  - Attend Community Events
    - Community Collective
    - Overdose Awareness Day
    - National Night Out
  - Provide requested training
  - Speak about program
  - Anti Stigma
- New Initiative 2-12-24
  - Buprenorphine Administration
- Client Sharing Agreements
  - Neighboring Fire Departments
- Work with CDC
  - Assisted 21 agencies when they had questions about program start up

#### CASE STUDY

#### His Story

- Released from incarceration early that morning
- Was incarcerated 7 months ago, for a warrant; police arrived on the scene of his wife's overdose death and he was taken into custody
- His agent planned for him to go to TLP upon release
- He showed up to see his agent on day of release and agent was on vacation with no plans communicated to the covering agent
- With no place to go he wandered around the city and came across a community event

#### The Action

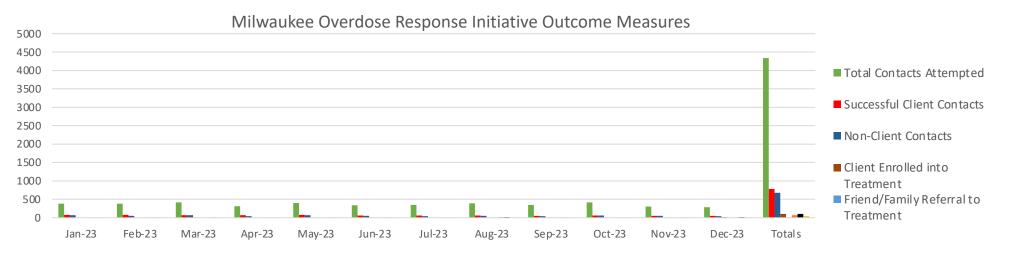

- MORI was informed that a man was in need of assistance
- At 7pm calls were made to partners in the community
- One of our sober living partners had a bed available;
   agreed to skip formalities and accept him that night
- MORI transported him that night into sober living

### THE STORY DOES NOT END THERE....

- He obtained employment and kept in contact with team
- After a couple of weeks he was asked to leave for violating a rule
- He went to a shelter
- Communication continued throughout upcoming weeks
- He learned about a more intensive program through the shelter and was approved
- Currently in services and team visits with him monthly

# MORI OUTCOME MEASURES 2023

MORI Outcome Measures	Jan-23	Feb-23	Mar-23	Apr-23	May-23	Jun-23	Jul-23	Aug-23	Sep-23	Oct-23	Nov-23	Dec-23	Totals
