**Some tips:**

**Hanging indent** – use a .5" hanging indent for all reference list citations. Not sure how? This [handout has directions](#).

**Authors** – do not spell out an author’s first or middle name or include their credentials. For two to seven authors, an ampersand “&” precedes the last author’s name. More information on citing multiple authors is on the [Purdue OWL site](#).

**Article title** – capitalize the first word of the title, first word of a subtitle (after a colon “:”), and [proper nouns](#) only.

**Journal title** – capitalize all major words.

**Volume and issue number** – there is no space between the volume and issue number.

**DOI** – if there is no DOI, Alverno librarians recommend that the citation end with the page range.
